3. OPERATIONS REQUIREMENTS SECTION:

a. Assisted the Development Branch in a flight test of the Westmont Beacon. Results of this test were submitted in a memorandum dated 4 March. In summary, this beacon was considered reliable at distances up to 18 miles when flying 500 feet above the highest terrain in the area. When flying 500 feet above terrain contours, this beacon was reliable at distances up to 8 miles. It is pointed out that these tests were conducted in the mountains near Cumberland, Maryland, therefore, the reliable ranges are considered true reliability operating under adverse terrain features.

b. Reached an agreement with [REDACTED] concerning the utilization of the [REDACTED] for proficiency training for his [REDACTED] crews. [REDACTED] has agreed that he will delay his proficiency training until the week of 28 April to 6 May. The use of this aircraft has been coordinated and concurred in by the Navy.

c. In a meeting with representatives from the Air Section and the Materiel Branch, it was decided that the Requirements Section should take immediate action to obtain at least two more C-54 inflight opening doors as soon as possible. [REDACTED] stated that he was very satisfied with the door TSD had developed after this door had been modified by his personnel for electrical operation. In a meeting with [REDACTED] (TSD/ED) it was determined that two additional doors could be manufactured within a period of ninety days. [REDACTED] estimated that after delivery of the doors, his crew could make the electrical modification within two to three weeks, assuming availability of C-54 aircraft. A letter will be prepared by Operations Branch, Requirements Section, requesting TSD to take necessary action to have C-54 inflight opening doors fabricated. Funds already available in the amount of \$80,000 to cover procurement of same. Therefore, no activity program will be required.

d. Coordinated the pickup and delivery of the APG-53A radar set at Indianapolis for delivery to Lockheed Aircraft for installation on the [REDACTED]. The Navy is loaning us this piece of equipment and has directed their factory (Navy Avionic Facilities) to provide this equipment.
